

Can One Wrong

Justify Another?

The Caste System is a Crime Against Humanity ...

But is Reservation the
answer?

Is it not a self serving ploy to
keep the population
divided?

Is it not a political tool for
scattering largesse and
creating safe vote banks?

Is it not a system of
appeasing and abetting
mediocrity?

"BRILLIANT, BHAI, BRILLIANT!
PLAY THE OLD BRITISH GAME...
'DIVIDE AND RULE'!!"

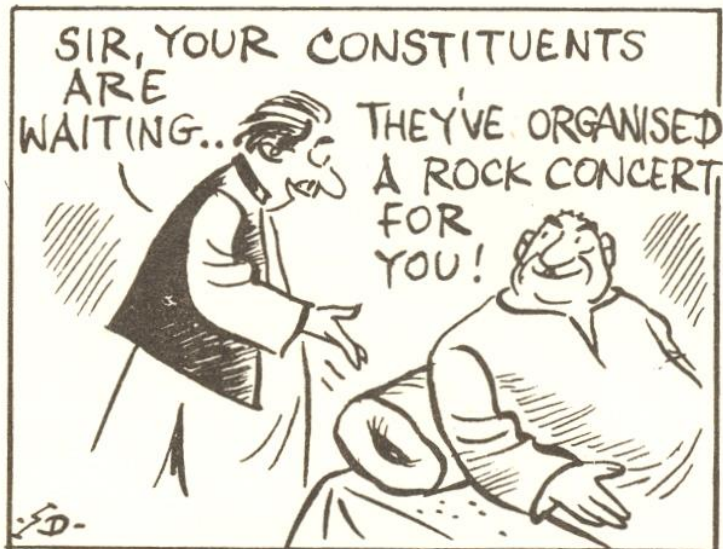

The System didn't work

Because the intention
was not to reduce
inequalities, but to
foster hatred and
ensure the
continuation of “vested
interests”

Jawaharlal Nehru was opposed to the very idea of Quotas...

“this way lies not only folly but disaster”

“if you seek to give safeguards to a minority ...
you isolate it ...keeping it away from the main
current in which the majority is going”

Baba Saheb Ambedkar was even more vocal :

“To leave inequality between class and class, between sex and sex, which is the soul of Hindu society, untouched and to go on passing legislation relating to economic problems is to make a farce of our Constitution and to build a palace on dung heap”

But who gives a damn?

The Machiavellian
Raja of Manda doesn't

The "wily Thakur"

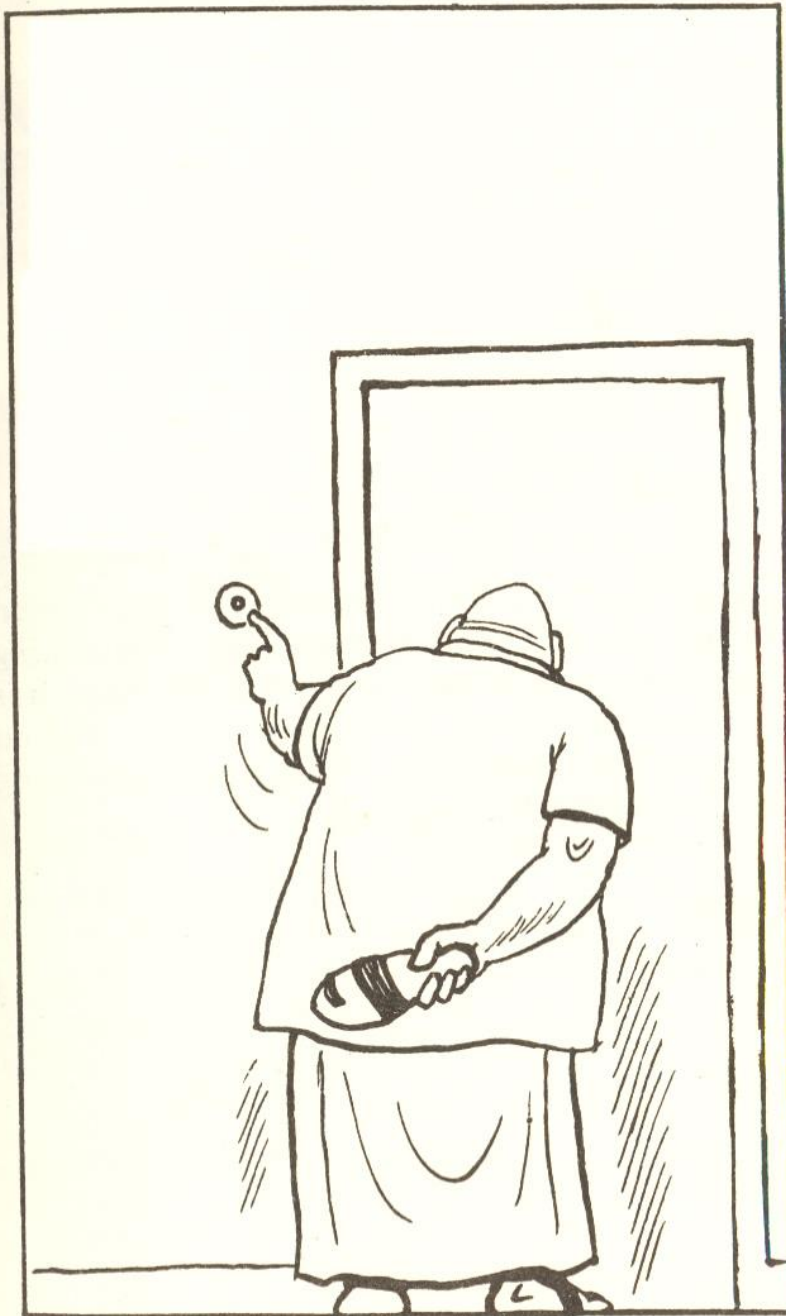

Arjun Singh doesn't

The fodder chewing

Laloo Yadav doesn't

The Mayawati of the

Taj Corridor doesn't

"ARRE BHAI, IT'S NOT FUNNY...
HOW ELSE WILL WE PROJECT A
PRO-POOR IMAGE IN TWO MONTHS?!"

For 60 long years

Those that have
cornered the
privileges and have
taken the guise of the
“creamy layer”
doesn't either...

Aristotle said

“ Injustice arises, when equals are treated unequally and also when unequals are treated equally”

And now ...

With the economy shining, record per capita growth rates, diminishing possibilities of doling out government jobs and other “favors”

With an increasingly affluent middle class and a knowledge powered economy heading north

The “Satranj ke Khiladi” are back

Playing their little game
of divide and rule
Pitting brother against
brother
Gambling with lives ...

"WE BELIEVE YOU'RE LOOKING FOR
LIKE-MINDED PARTIES..!"

IN APPRECIATION OF YOUR
OUTSTANDING WORK
FOR THE ELECTIONS!!

Enter Reservation II

Expand the horizon and
embrace the private
sector

A win-win situation : those
appeased will be in
control while the
industries will accord a
toehold ... with the
usual trappings!

The Constitution Guarantees Equality to all Indians

Then, how can we restrict a section by
offering sops to another?

How can we justify “reverse” discrimination,
in the name of reservations and quotas?

The CII Response has justly been
Affirmative Action

- Adoption of schools
- Access to technical knowledge
 - Scholarships
- Public Private Partnership in Education
 - Mid Day Meals for the needy students
- Placement in Industry for shop floor training
 - Student Exchange Programs
- Enhancement of Technical Education
 - Talent Enhancement Procedures ...

Much has been done
More remains to be done

And the yardstick should be

EQUAL OPPORTUNITIES

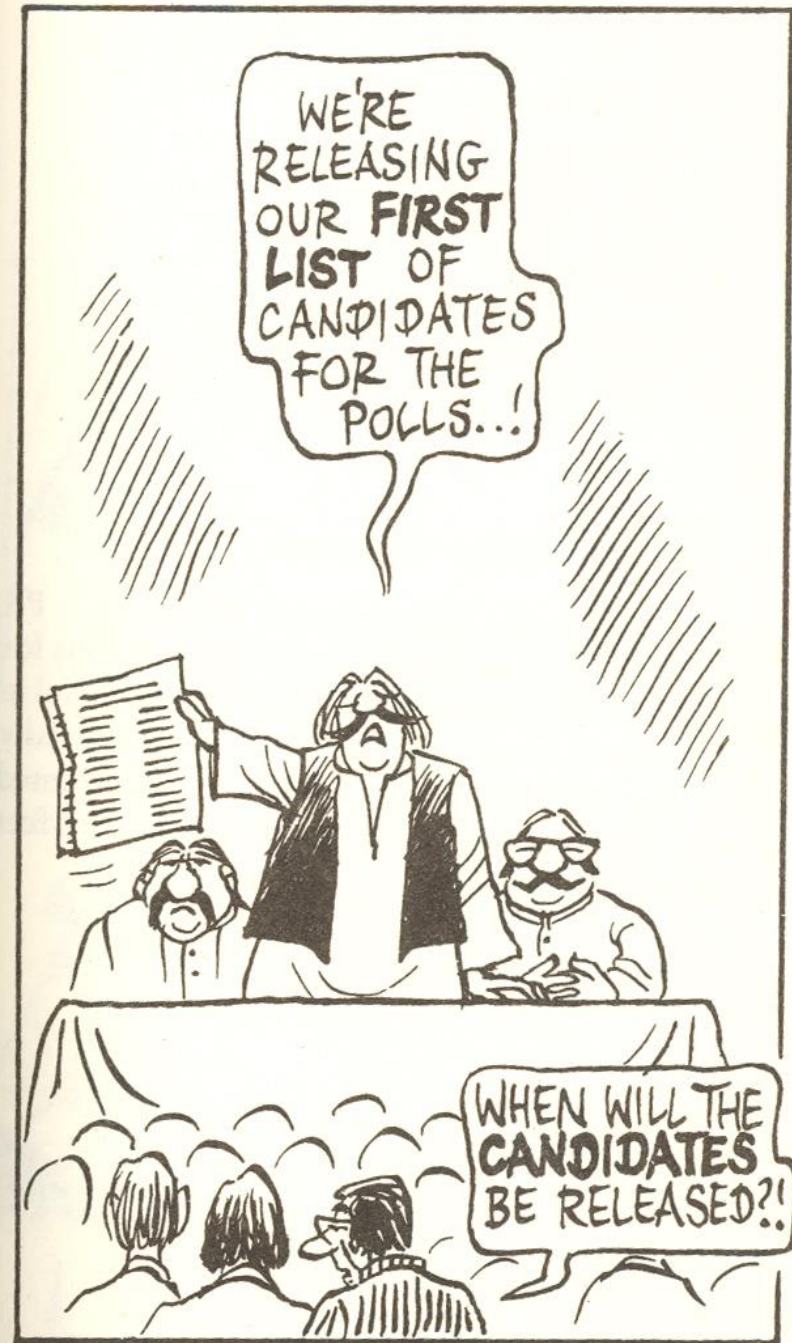

As true Indians, let us give our children ONE India,
where all have access to the same pool of
nectar to drink the Elixir of Life

Let CII Show the way

Let us pick up the
discarded and
desecrated dreams
of our founding
fathers,

And

Colour them for our
children

We are sons of a Proud Nation

Allow us to craft our own destinies.

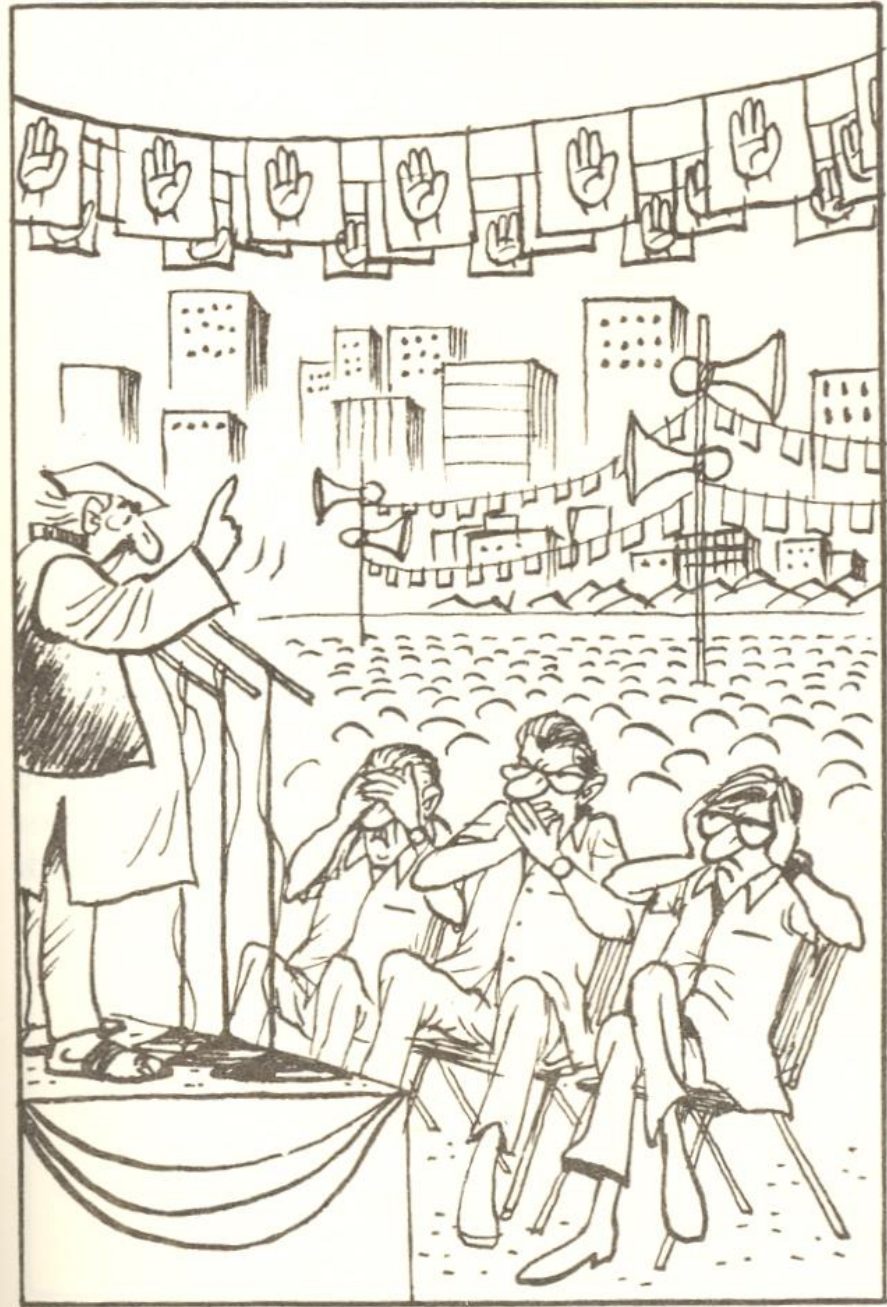

And in doing so, let us vow to carry our
“economically unprivileged” brethren across
the North – South divide to the
land of our dreams –

A strong, vibrant, economic superpower :

India

Let us not

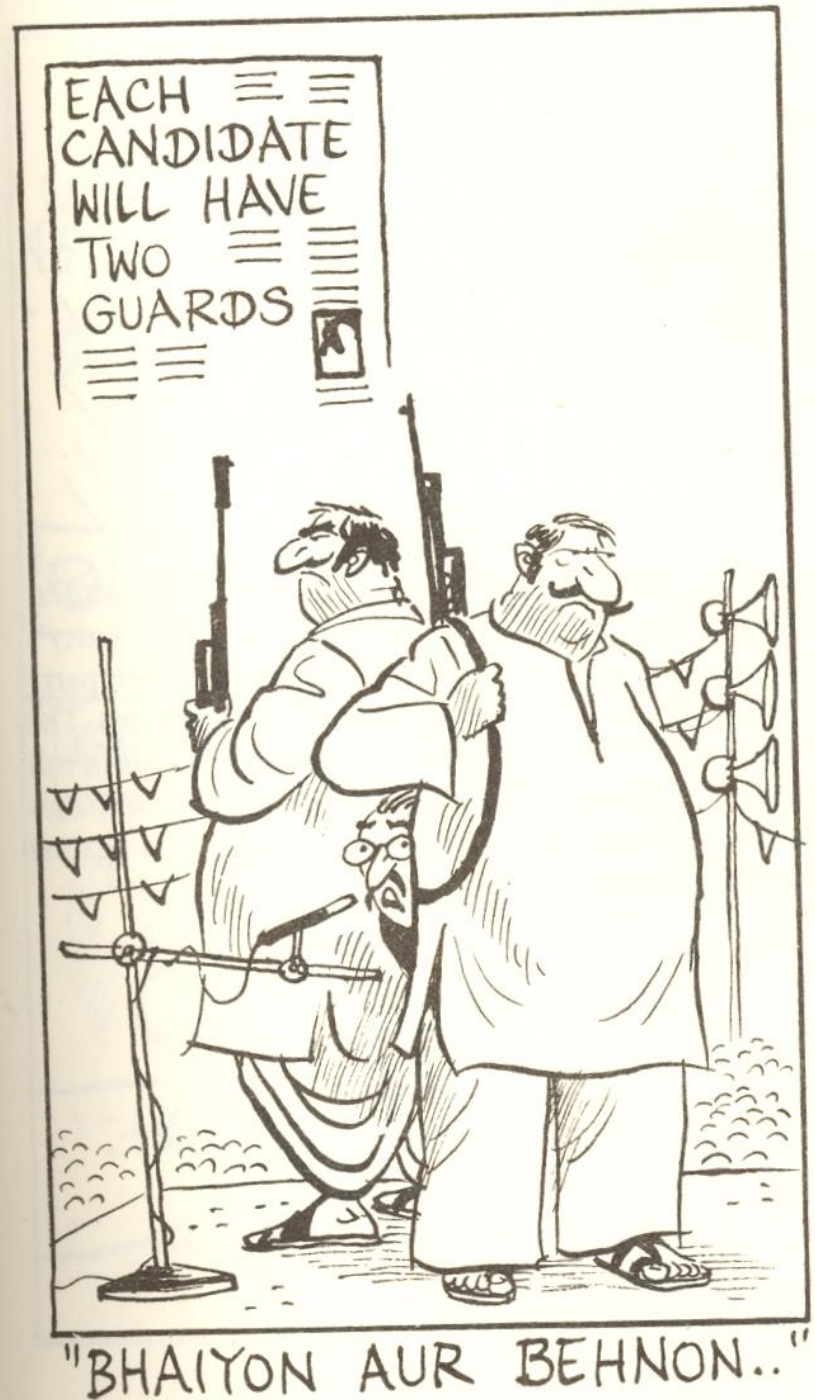

- ✘ Take the route of compromise, and sacrifice our principles?
- ✘ Follow the way that compromises our core values?
- ✘ Submit ourselves like sheep, being herded for the slaughter house?
- ✘ Trust Judas and Brutus in their new Avataar?

The message
should be
unequivocal ...

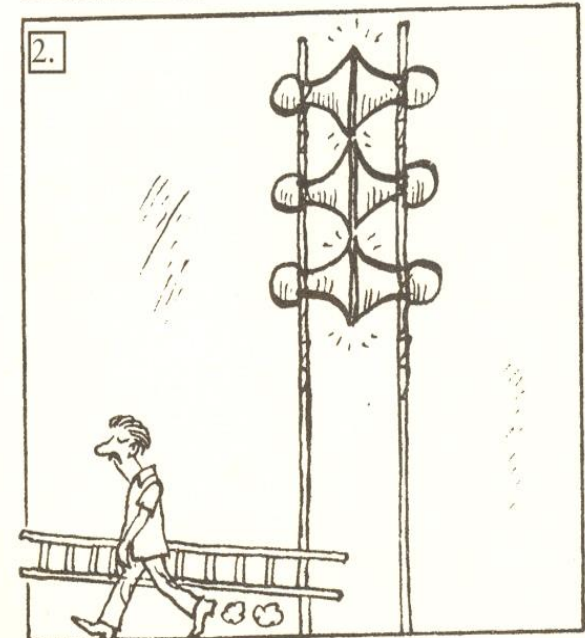

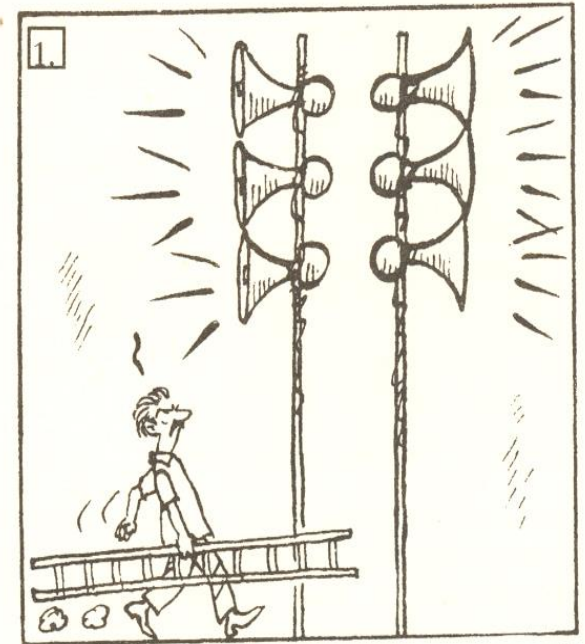

For with **Vision 2020** in
place, we cannot afford
to err

We cannot afford to go
back to medievalism
ignoring the call of the
world

We will Pick up the gauntlet

- ⊕ That the corrupt have thrown
and
- ⊕ Take the battle to their turf
- ⊕ We will not open our bedroom
to the goons
- ⊕ Our temples of perfection are
not open for desecration

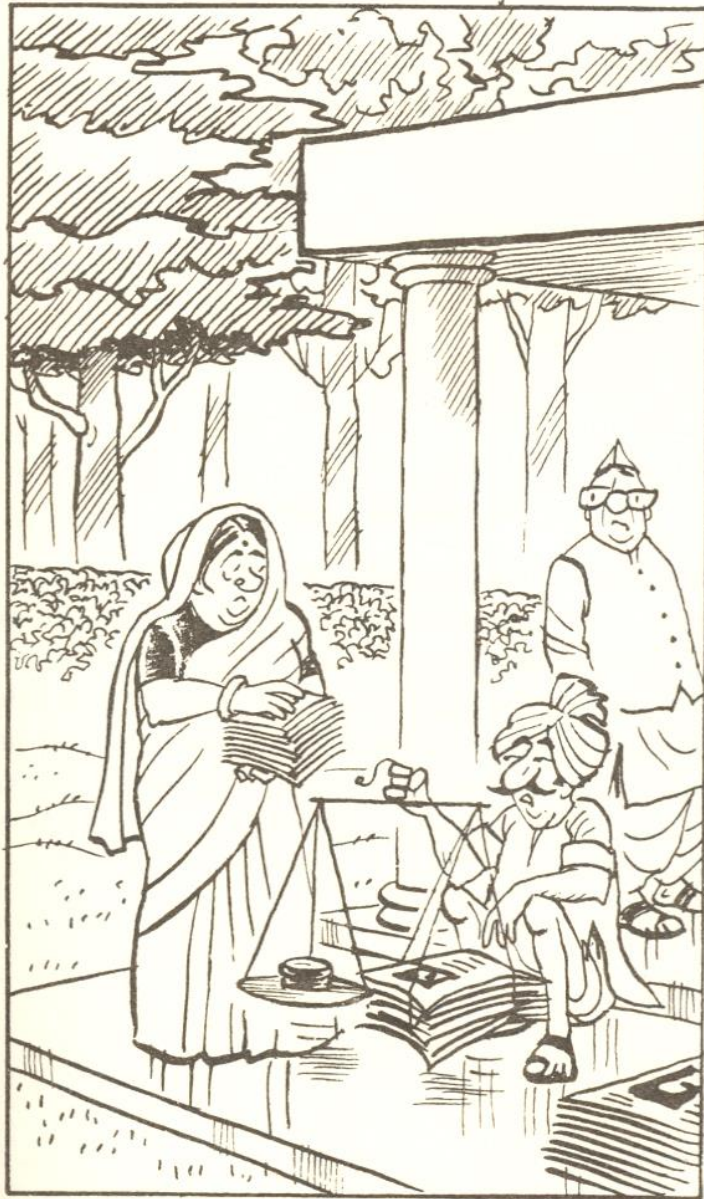

We are proud Indians

- ✿ We are the ones who have kept the **“tryst with destiny”**
- ✿ We are the ones who have built the **“temples of modern India”**
- ✿ We are the ones who have fluttered the **tri-colour** on distant shores
- ✿ We are the ones that have banished your **“Hindu rate of growth”**

The Solution?

Equal Opportunities : we were born equal – let no politician put that asunder
No Moily Formula – plain and simple equality :
Equal access to opportunities
Universal access to Education
Respect of talent

"MANIFESTOS?! NO THANKS –
I ONLY BUY PAPER THAT'S
WORTH SOMETHING!"

Identify, honour and encourage...

Meritocracy

- ☛ Let us have a system of encouraging the meritorious
- ☛ Let caste, creed, colour not be the deciding factor :
 - ☛ Take the weed out and allow a million flowers to bloom

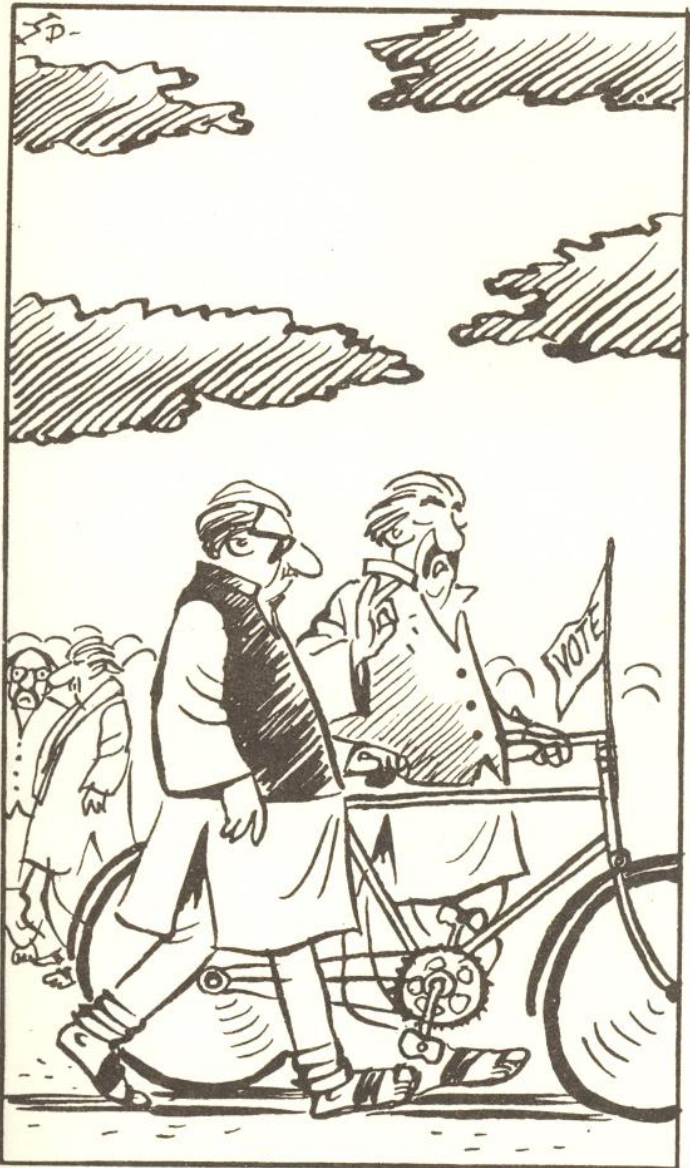

The Solution

Is not in Dividing

But in multiplying our
strengths

In adding our capabilities
so that our sons can
sing

“Mile Sur Mera Tumhara
To Sur Bane Hamara”

"FOR OUR CONSTITUENCY HE'S
PERFECT! HIS FATHER'S A
THAKUR, MOTHER'S A BRAHMIN
AND WIFE'S A HARIJAN..!"

"THIS TIME, I ASSURE YOU, WE
HAVE CHOSEN THE IDEAL PERSON
TO NURSE YOUR CONSTITUENCY..!"

Allow us

- To adopt schools around the country, according to our capabilities
- Offer free education to all
- Provide scholarships to the economically backward, the needy
- Change the socio-economic profile of the country

**Naa Tera Naa Mera
Humaara Bharat Mahaan!**
